PROVEN COMBUSTION SOLUTIONS

SPARES & SERVICE

At Hamworthy Peabody Combustion Inc., we believe in producing the highest quality products for our customers, but our responsibilities do not end when the equipment is delivered. Our after-the-sale service and support is unrivaled in the industry. Through our staff of skilled field engineers, customers receive superior installation and commissioning support, while our extensive replacement parts inventory prevents customers from ever being without the component they need.

Hamworthy Peabody Combustion Inc. has been your partner for proven combustion solutions since 1920. We provide products and services uniquely tailored to fulfill the combustion requirements of the utility, power generation, refining, petrochemical and process industries. As part of the global network of Hamworthy Combustion, we offer customized products and services on a global level, including low emissions burners, burner management systems, ignition systems, flares, flame scanners, air heaters, thermal oxidizers and fuel valve trains.

Commissioning

Hamworthy Peabody engineers will commission your new plant for optimum reliability, maximum efficiency and full emissions compliance.

Comprehensive Service Solutions

Hamworthy Peabody offers service contracts tailored to suit individual customer requirements, including:

- **Combustion Efficiency Testing:**
Trending boiler flue temperatures to maintain optimum efficiency
- **Emission Control and Monitoring:**
Involving data logging and monitoring of NO_x, SO_x, O₂ and CO₂
- **Technical Recommendations:**
Including fault diagnosis with practical solutions to minimize downtime
- **Emergency Call-Out:** Including breakdown service

Hamworthy Peabody provides a comprehensive range of spares and services to keep your operation running smoothly and reduce costly downtime. Our high quality parts and services include:

Burner Spares

- Burners
- Pilots/Ignitors
- Flame scanners
- Oil and gas firing equipment

Upgrading, Replacing & Refurbishing

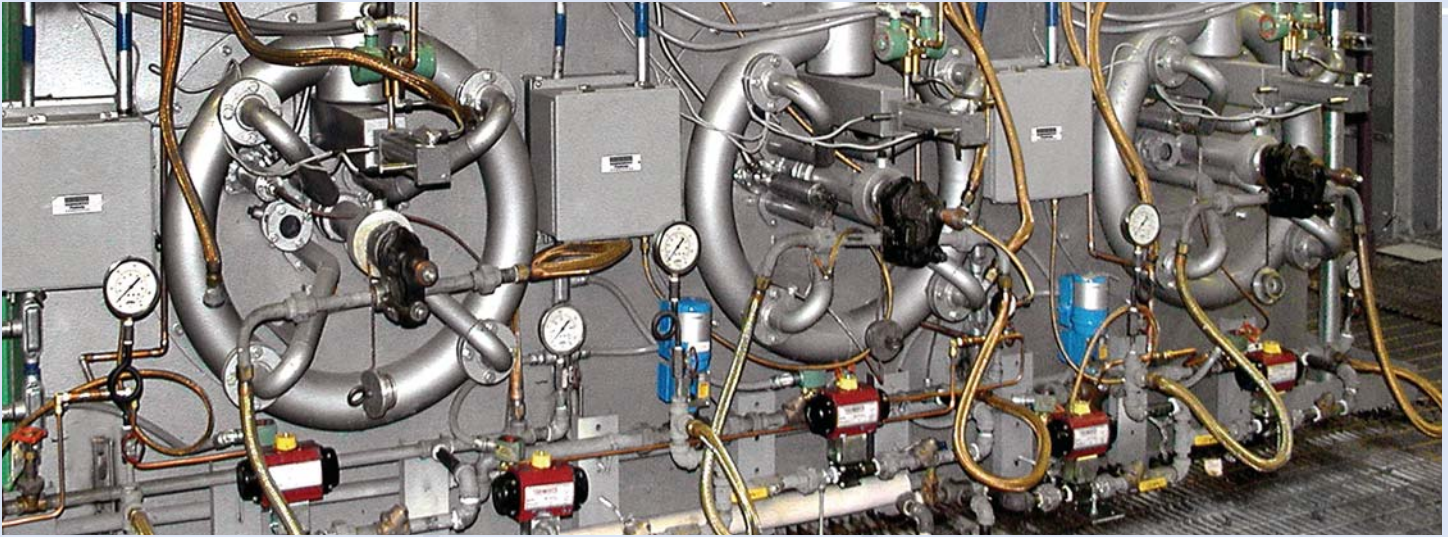

- Plant life extension upgrades
- Combustion optimization
- Field conversions
- Low emissions upgrades
- Flame scanner upgrades
- Air slide upgrades
- Control system upgrades
- Air flow model studies

Technical Support Services

A global network of certified combustion technicians that provide:

- Annual boiler insurance preparations and inspections
- Boiler house surveys
- Refractory replacement/repair
- Pipework systems
- Fuel shut-off devices

Hamworthy Peabody Combustion's skilled field engineers will ensure your installation runs at maximum efficiency and in full compliance with all health, safety and emissions regulations, while our extensive replacement parts inventory prevents you from ever being without the component you need. With one company, you receive complete solutions

tailored to your individual needs, from spare parts to servicing to preventive maintenance, inspection and repair. At Hamworthy Peabody Combustion Inc., we are dedicated to delivering the highest quality products with the best customer service experience in the industry.
